Flex Cable for Raspberry Pi Camera - 24" / 610mm

PRODUCT ID: 1731

Description

This cable will let you swap out the stock 150mm long flex cable from a Raspberry Pi Camera (either 'classic' or 'NoIR' type) for a different size. Works great, just carefully open the connector on the Pi and slip this one in.

This cable is 24" / 610mm long We have cables in 2", 4", 8", 12", and 18" long so you can have the perfect fit. Each order comes with one cable, Pi Camera not included (but we have those in the shop as well).
