Heavy-Duty C13 to C14 PDU-Style Power Extension Cable - 15A, 100–250V, 14 AWG, 3 ft., Blue

MODEL NUMBER: **P005-003-ABL**

Computer power extension cord connects devices with C13/C14 power connectors or extends your existing power connection by 3 ft.

Features

C14-to-C13 Power Cable for Network Devices That Require a Heavy-Gauge Connection
This IEC-320-C14 to IEC-320-C13 cable features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. This C14 male to C13 female cord can be used to connect a computer, server, monitor or drive to a UPS system or PDU or replace or upgrade the standard power cord provided by the device's manufacturer. The three-foot length helps reduce cable clutter and minimize the risk of tripping.

Color-Coded to Avoid Misidentification That Can Cause Costly Downtime
This computer power extension cord features a blue SJT jacket and fully molded blue ends. The color-coding allows easy, fast identification in a crowded rack or workstation and helps prevent the cable from becoming inadvertently disconnected**.**

Highlights

- Recommended for powering computers, servers and other network devices
- 3 ft. length allows flexibility in placing devices, while avoiding cable clutter
- PDU-style cord replaces or upgrades standard power cord provided by manufacturer
- Color-coded blue for fast, easy identification in a crowded rack or workstation
- Thick 14 AWG wire gauge manages high power levels required for larger equipment

Applications

- Connect devices like computers, servers and monitors to a PDU up to 3 ft. away in your data center
- Extend an existing power connection up to 3 ft. to more easily place a device or reach a power source in a rack
- Update or replace the standard power cord provided by a device's original manufacturer

Package Includes

- P005-003-ABL Heavy-Duty C13 to C14 PDU-Style Power Extension Cable, 3 ft., Blue
