Unmatched Tees
Non-Isolated

2041 Series

V2.00

Features

- Small Size
- Broad Band
- Economical Power Divider

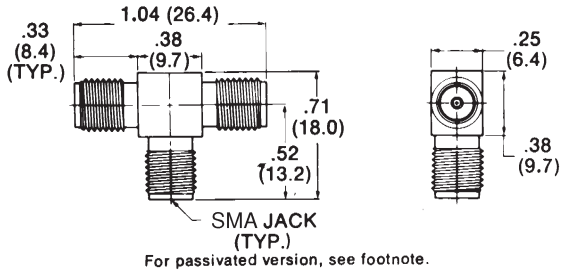

Description

Miniature Unmatched Coaxial Tees provide a convenient means of separating an input signal into two components. The units are used where Isolation between the outputs and VSWR are not primary considerations. Temperature range is -54°C to +125°C.

	PART NUMBER
JACK-JACK-JACK	2041-6201-00
PLUG-PLUG-PLUG	2041-6202-00
JACK-PLUG-JACK	2041-6203-00
PLUG-JACK-PLUG	2041-6204-00

All unmatched coaxial tees have SMA connectors. For SSMA connectors, simply change the first digit in the part number from "2" to "1". For Example,1041-6201-00.

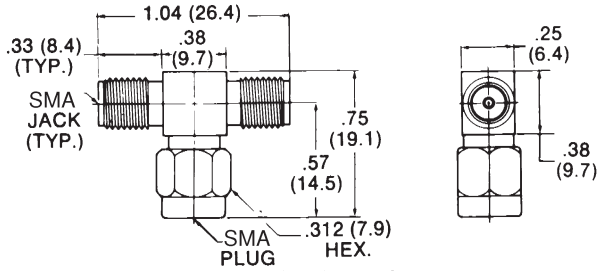

Standard units have gold plated connectors ("- 00" suffix). For passivated stainless steel finish connectors, change the "00" to "02" in the part number.

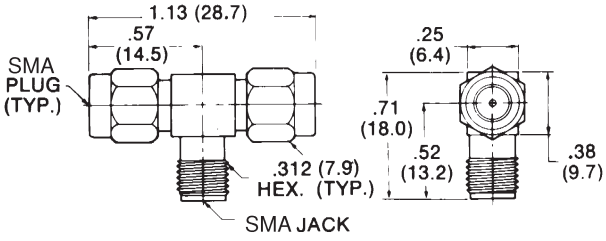

For passivated version, see footnote.

For passivated version, see footnote.

For passivated version, see footnote.

For passivated version, see footnote.

All dimensions are ± .020.
