

# 930 Series Miniature Bayonet Lampholders

## Overview

The 930 Series relampable miniature bayonet lampholders accommodate T-3 1/4 and T-2 incandescent lamps and T-3 1/4 neon lamps. This robust lampholder assembly may be ordered with many decorative lens styles, plating options and unique termination and mounting features.

## Approvals

UL Listed and CSA Certified. For MIL Spec Lampholders, contact the factory.

## Specification

**Housing:** Brass. Black nickel, bright nickel, polished chrome, or satin chrome finishes.

**Body:** High dielectric phenolic.

**Lockwasher:** Phosphor bronze. Nickel-plated.

**Hex Nut:** Brass. Nickel-plated.

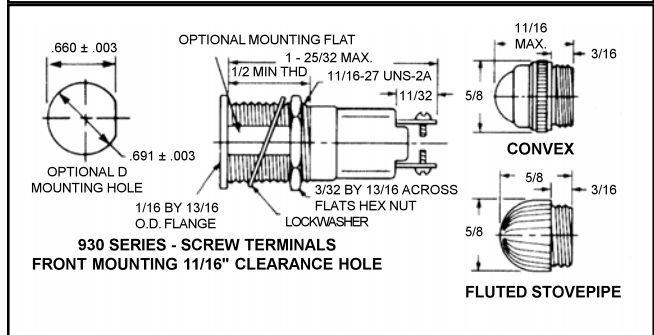

**Terminals:** Solder Lug: Brass, tin-plated. Screw Type: 4-40 brass, nickel-plated binding head screws.

**Wire Leads:** 6" leads, #22 AWG, black & white, stranded copper, PVC insulated, UL/CSA rated 105°C, stripped 1/2". Custom wire options are also available.

**Lens:** Heat resistant, high strength polycarbonate.

**Retainer:** Brass. Black nickel, bright nickel, polished chrome or satin chrome finishes available.

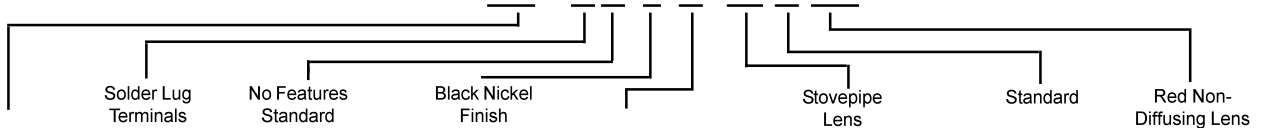

**930 Series Maximum Rating:** 3 Watts, 250 Volts.

## ORDERING INFORMATION:

Lampholders and lens caps may be ordered separately or as complete assemblies as shown in the example below:

**EXAMPLE: 9 3 0 4 0 4 X 71 0 RN**

| Series Number                                                                                                                                                                                                                                                                                                                                       | Lampholders     |                                                                                |                                                                 |                                                                | Lens Cap Assembly                                                                                                                                                                                                                                |                                                           |                                                                                                                                     |
