■Recommended Mounting Pattern

* The dotted line portion indicates the position of the pattern.

- * Set interval L of the signal pattern to 6 mm and interval S of the signal pattern and ground pattern to 1 to 1.8 mm.
- * Press the red seal onto the microstrip line surface and solder the tab.
- * Tab Soldering Conditions
 - Soldering iron tip temperature: 260 to 290°C
 - Time: Within 5 seconds
- * Note that although the high frequency characteristics will be somewhat degraded, please attach the tab with some slack in order to improve the thermal reliability.
