

IL-G SERIES CONNECTORS

2.5mm (.098") Contact Spacing, PCB-to-Cable (Crimp Type) Connectors

FEATURES

- Low profile—10mm (.394") total mated height for straight connection
- Mismatching-prevention structure
- Friction locking mechanism
- Prevents solder-flux contamination

.....

IL-G Series connectors are low profile, PCB-to-cable connectors with 2.5mm (.098") contact spacing.

The crimp contacts for socket housing can be terminated with a hand crimping tool, or a semi-automatic crimping machine for rapid, high volume terminations. IL-G Series connectors are available in socket housing, straight pin header and right angle pin header configurations.

GENERAL SPECIFICATIONS

Number of Contacts	2 to 15
Contact Spacing	2.5mm (.098"), single row
Current Rating	3 Amps
Dielectric Withstanding Voltage	1500 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min.
Contact Resistance	20 milliohms max.
Operating Temperature	-40°C to +85°C
Applicable PCB Thickness	1.6 to 2.6mm (.063 to .102") thick
Applicable Wire Sizes	AWG #22 to #28

MATERIALS AND FINISHES

Description	Materials/Finishes
Insulator	6-6 Nylon (UL94V-0, Light Brown)
Pin Contact	Brass, Tin plated over Nickel
Socket Contact	Phosphor Bronze/Tin plated

ORDERING INFORMATION

	IL-G	-	**	*	-	S	3	*	2	-	E
Series	IL-G										
No. of Contacts			**	*							
2 to 15											
Contact Type						S					
P - Pin S - Socket											
Contact Arrangement							S				
S - Single Row											
Contact Spacing							3				
3 - 2.5mm (.098")											
Termination								*			
C - Crimp (Socket Housing)											
T - Straight (Pin Header)											
L - Right Angle (Pin Header)											
PCB Thickness (Pin Header)/Wire Size (Socket Housing)									2		
2 - 1.6 to 2.6mm (.063 to .102") PCB Thickness or #22 AWG to #28 AWG Wire Size											
Modification Code (Pin Header Only)										E
