

## FEATURES

- Plastic package has Underwriters Laboratory Flammability Classification 94V-0
- Metal silicon junction ,majority carrier conduction
- Guard ring for overvoltage protection
- Low power loss ,high efficiency
- High current capability ,Low forward voltage drop
- Single rectifier construction
- High surge capability
- For use in low voltage ,high frequency inverters, free wheeling ,and polarity protection applications
- High temperature soldering guaranteed:260°C/10 seconds, 0.25"(6.35mm)from case
- Component in accordance to RoHS 2002/95/EC and WEEE 2002/96/EC

## TO-220AB

## MECHANICAL DATA

- Case: JEDEC TO-220AB molded plastic body
- Terminals: Lead solderable per MIL-STD-750,method 2026
- Polarity: As marked
- Mounting Position: Any
- Weight: 0.08ounce, 2.24 grams

## MAXIMUM RATINGS AND ELECTRICAL CHARACTERISTICS

(Ratings at 25°C ambient temperature unless otherwise specified ,Single phase ,half wave ,resistive or inductive load. For capacitive load,derate by 20%.)

|                                                                                                  |              | Symbols | MBR 4030CT | MBR 4035CT | MBR 4040CT | MBR 4045CT | MBR 4050CT | MBR 4060CT | MBR 40100CT | MBR 40150CT | MBR 40200CT | Units |
|--------------------------------------------------------------------------------------------------|--------------|---------|------------|------------|------------|------------|------------|------------|-------------|-------------|-------------|-------|
| Maximum repetitive peak reverse voltage                                                          |              | VRRM    | 30         | 35         | 40         | 45         | 50         | 60         | 100         | 150         | 200         | Volts |
| Maximum RMS voltage                                                                              |              | VRMS    | 21         | 25         | 28         | 32         | 35         | 42         | 70          | 105         | 140         | Volts |
| Maximum DC blocking voltage                                                                      |              | VDC     | 30         | 35         | 40         | 45         | 50         | 60         | 100         | 150         | 200         | Volts |
| Maximum average forward rectified current(see Fig.1)                                             | Per leg      | I(AV)   | 20.0       |            |            |            |            |            |             |             |             | Amps  |
|                                                                                                  | Total device |         | 40.0       |            |            |            |            |            |             |             |             |       |
| Peak forward surge current 8.3ms single half sine-wave superimposed on rated load (JEDEC method) |              | IFSM    | 300.0      |            |            |            |            |            |             |             |             | Amps  |
| Maximum instantaneous forward voltage at 40.0 A                                                  |              | VF      | 0.60       |            |            |            | 0.75       |            | 0.85        | 0.95        |             | Volts |
| Maximum instantaneous reverse current at rated DC blocking voltage(Note 1)                       | Tc =25°C     | IR      | 0.2        |            |            |            |            |            |             |             |             | mA    |
|                                                                                                  | Tc =125°C    |         | 30         |            |            |            | 50         |            |             |             |             |       |
| Typical thermal resistance (Note 2)                                                              |              | ROJC    | 3.0        |            |            |            |            |            |             |             |             | °C/W  |
| Operating junction temperature range                                                             |              | TJ      | -65 to+150 |            |            |            |            |            |             |             |             | °C    |
| Storage temperature range                                                                        |              | TSTG    | -65 to+150 |            |            |            |            |            |             |             |             | °C    |

Notes: 1.Pulse test: 300  $\mu$ s pulse width,1% duty cycle
