Not for usage in European Market

C14 Male to C13 Female Power Cable, C13 to C14 PDU-Style, Locking C13 Connector, 10A, 18 AWG, 1 ft.

MODEL NUMBER: **P004-L01**

Computer power extension cord connects 2 devices with C13/C14 power connectors or extends your current power connection by 1 ft.

Features

C14-to-C13 Power Cable Connects Computers, Printers, Servers and Other Equipment
This IEC-320-C14 to IEC-320-C13 cable is an ideal replacement for a missing or worn-out computer power extension cord. Designed for data center and server room applications that do not require a higher-gauge cable, this UL-listed C14 male to C13 female cord can be used to power a computer, printer or monitor; attach a server or drive to a UPS system or PDU; or extend a current connection up to one foot.

Locking Connector Helps Prevent Accidental Disconnection and Expensive Downtime
Having a cable come loose accidentally can mean the loss of power and costly downtime. The P004-L01's locking C13 connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking cable is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.

Designed to Keep Your Equipment Connected a Long Time without Stress
The SJT cable jacket is accentuated with integral strain relief, which gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.

Lifetime Warranty
The P004-L01 is backed by a lifetime warranty, ensuring reliability and performance.

Highlights

- C13-to-C14 PDU-style extension cord is ideal replacement for worn-out or missing cable
- Recommended for connecting power to computers, servers and other peripherals
- Adds 1 ft. to your current power connection to provide more flexibility in placing devices
- Integral strain relief helps cable and connectors move freely without stress or cracking
- Locking C13 connector maintains secure link to avoid loss of power and costly downtime

Applications

- Connect devices like computers, servers and monitors to a PDU up to 1 ft. away in your data center
- Extend a current power connection up to 1 ft. to more easily place a device or reach a power source in a rack
- Provide a high-quality replacement for a worn-out or missing power cord

Package Includes

- P004-L01 C14 Male to C13 Female Power Cable, 1 ft.
