Getting Started with SDP-S Controller Board and Evaluation Boards

NOTE Do not connect the SDP-S board to the PC prior to the completion of the steps outlined below.

Your component evaluation system requires the following:

System Demonstration Platform Controller Board (SDP-S) Package:	Evaluation Package:
One EVAL-SDP-CS1Z board One A to mini B USB cable	One EVAL-ADXXXXSDZ board One CD-ROM with application software

For successful SDP-S and Evaluation board installation, follow these steps:

Step 1: Install the application software provided as part of the component evaluation package.

Step 2: Plug the evaluation board onto the SDP-S board.

Step 3: Power the evaluation board.

Step 4: Connect the evaluation and SDP-S boards to the PC using the USB cable provided in the SDP-S board package.

Step 5: Start the application software.
