Interface cable
UC-30GM-R2

Function

The UC-30GM-R2 interface cable enables the parameterisation of ultrasonic sensors of types UC...-30GM-..R2-V15 using the ULTRA3000 service software. The cable creates a connection between the PC-internal RS 232 interface and the connector of the temperature/programming plug on the sensor.
At PCs without RS 232 interface the connection can alternatively be done at a free USB port. For this purpose, additionally an interface adapter USB-0,8M-PVC ABG-SUBD9 is required.

Dimensions

Technical Data

Mechanical specifications		
Connection		9-pin Sub-D socket
Material		
Cable		PUR
Cable		
Color		black
Cable length		3 m

Accessories

	ULTRA3000	Software for ultrasonic sensors, comfort line

Release date: 2021-02-05 Date of issue: 2021-02-05 Filename: 114760_eng.pdf

Accessories

	**UVW90-M30**	Ultrasonic -deflector
	**UVW90-K30**	Ultrasonic -deflector
	**M30K-VE**	Plastic nuts with centering ring for the vibration-free mounting of cylindrical sensors

Release date: 2021-02-05 Date of issue: 2021-02-05 Filename: 114760_eng.pdf
