

1. Features

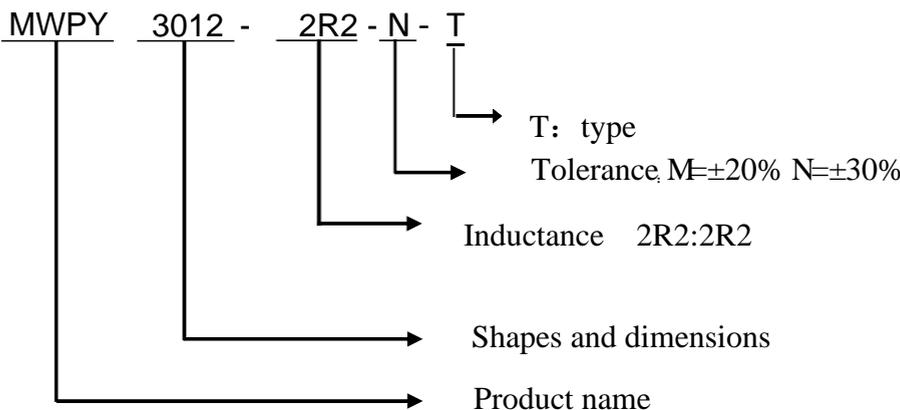

- The inductor designed as surface mounting , smallest and thinnest with high power , high saturation and low resistance.
- Magnetic-resin shielded structure reduces buzz noise to ultra-low levels , Closed magnetic circuit structure reduces magnetic leakage flux , high performance of anti-EMI .
- Compared with the same size part , the rated current 30% higher than the traditional inductors .
- Wide range working frequency that reach more than 5MHz
- RoHS ,Halogen-free environmental protection products

2 Applications

- LED Lighting
- Automotive systems
- Notebooks, desktop computers, servers, graphic cards

3. Product Identification

4 Shape and Dimension (Unit:mm)

MWPY5040-681-M-T	680 $\pm 20\%$	4.200	0.30	0.25	1.3

Remark: 1. Inductance Tested at 100kHz, 1Vrms (20°C)

2. Isat: DC current at which the inductance drops approximate 30% from its value without current;

3. Irms: DC current that causes the temperature rise ($\Delta T \leq 40^\circ\text{C}$) from 25°C ambient.

4. Operating Temperature : -40°C ~ +125°C
