MORNSUN®

15W&20W,Ultra wide input isolated & regulated DC/DC converter

FEATURES

- Wide range of input voltage (4:1)
- Efficiency up to 89%
- Isolation voltage :1.5K VDC
- Operating temperature range: -40°C to +85°C
- Output over current protection, output over voltage protection, output short circuit protection(automatic recovery)
- Six-sided metal shielding package
- International standard pin-out
- A2S (wring mounting) and A4S (35mm rail mounting) products featuring anti-reverse connection for inpu
- Meet EN60950

Patent Protection RoHS C E

URB1D_LD-15W & URB1D_LD-20W series Wide input voltage range is 40-160VDC. It is suitable for 72 V, 96 V, 110 V standard input of the bus voltage.single output and 1500VDC isolation, over current, over voltage and short-circuit protection. It offers good EMC performance, meet EN60950 standards. All models are particularly suited to railway etc.

Note:

①Series with suffix "H" are heat sink mounting; series with suffix "A25" are chassis mounting, with suffix "A45" are DIN-Rail mounting, for example URB1D05LD-20WHA2S is chassis mounting of with heat sink,URB1D05LD-20WA4S is DIN-Rail mounting of without heat sink; If the application has a higher requirement for heat dissipation, you can choose modules with heat sink;

⁽²⁾Absolute maximum rating without damage on the converter, but it isn't recommended;

(3) The efficiency of A2S (wiring type) and A4S (rail type) products is 2% lower than the above-mentioned value due to the reverse connection protection for input;

1. Typical application

All the DC/DC converters of this series are tested according to the recommended circuit (see Fig. 2) before delivery. If it is required to further reduce input and output ripple, properly increase the input & output of additional capacitors Cin and Cout or select capacitors of low equivalent impedance provided that the capacitance is no larger than the max. capacitive load of the product.

Notes:

- 1. Packing Information please refer to 'Product Packing Information'. The Packing bag number of Horizontal package: 58200035(without heatsink),58200051(with heatsink), the Packing bag number of A2S/ A4S package: 58220022;
- 2. Recommended used in more than 5% load, if the load is lower than 5%, then the ripple index of the product may exceed the specification, but does not affect the reliability of the product;
- 3. The max. capacitive load should be tested within the input voltage range and under full load conditions;
- 4. Unless otherwise specified, data in this datasheet should be tested under the conditions of Ta=25°C, humidity<75% when inputting nominal voltage and outputting rated load;
- 5. All index testing methods in this datasheet are based on our Company's corporate standards;
- 6. The performance indexes of the product models listed in this datasheet are as above, but some indexes of non-standard model products will exceed the above-mentioned requirements, and please directly contact our technicians for specific information;
- 7. We can provide product customization service;
- 8. Specifications of this product are subject to changes without prior notice.
