

# FLL300IL-1, FLL300IL-2, FLL300IL-3

## L-Band Medium & High Power GaAs FET

### FEATURES

- High Output Power:  $P_{1dB} = 44.5dBm$  (Typ.)
- High Gain:  $G_{1dB} = 12.0dB$  (Typ.) @ 1.8GHz (FLL300IL-2)
- High PAE:  $\eta_{add} = 44\%$  (Typ.)
- Proven Reliability
- Hermetically Sealed Package

### DESCRIPTION

The FLL300IL-1, FLL300IL-2, FLL300IL-3 are Power GaAs FETs that are specifically designed to provide high power at L-Band frequencies with gain, linearity and efficiency superior to that of silicon devices. The performance in multitone environments for Class AB operation make them ideally suited for base station applications.

Fujitsu's stringent Quality Assurance Program assures the highest reliability and consistent performance.

### ABSOLUTE MAXIMUM RATING (Ambient Temperature $T_a=25^\circ C$ )

| Item                    | Symbol    | Condition          | Rating      | Unit       |
|-------------------------|-----------|--------------------|-------------|------------|
| Drain-Source Voltage    | $V_{DS}$  |                    | 15          | V          |
| Gate-Source Voltage     | $V_{GS}$  |                    | -5          | V          |
| Total Power Dissipation | $P_T$     | $T_C = 25^\circ C$ | 100         | W          |
| Storage Temperature     | $T_{stg}$ |                    | -65 to +175 | $^\circ C$ |
| Channel Temperature     | $T_{ch}$  |                    | 175         | $^\circ C$ |

Fujitsu recommends the following conditions for the reliable operation of GaAs FETs:

1. The drain-source operating voltage ( $V_{DS}$ ) should not exceed 10 volts.
2. The forward and reverse gate currents should not exceed 80.4 and -17.4 mA respectively with gate resistance of 25 $\Omega$ .
3. The operating channel temperature ( $T_{ch}$ ) should not exceed 145 $^\circ C$ .

### ELECTRICAL CHARACTERISTICS (Ambient Temperature $T_a=25^\circ C$ )

#### CAUTION

Fujitsu Compound Semiconductor Products contain **gallium arsenide (GaAs)** which can be hazardous to the human body and the environment. For safety, observe the following procedures:

- Do not put these products into the mouth.
- Do not alter the form of this product into a gas, powder, or liquid through burning, crushing, or chemical processing as these by-products are dangerous to the human body if inhaled, ingested, or swallowed.
- Observe government laws and company regulations when discarding this product. This product must be discarded in accordance with methods specified by applicable hazardous waste procedures.

Fujitsu Limited reserves the right to change products and specifications without notice. The information does not convey any license under rights of Fujitsu Limited or others.
