

High Power PoE Splitter 12V

POS-4000

H/W Version: 1

The LevelOne POS-4000 is a PoE Splitter working with the POI-4000, FSW-0513 and POH-1260 high power PoE injectors for enabling PoE functionality to network device that requires more power. The POS-4000 is capable of supporting maximum power output 12VDC/2.5A for device that requires power up to 30W.

Internal current limit, short-circuit and overload protection are implemented to maintain safety of connected device. Furthermore, using with the POR-0100 PoE repeater can extend the PoE connecting distance beyond additional 100 meters.

1. LED Indicator
2. Output Power Jack
3. RJ-45 In
4. RJ-45 Out

Key Features

- Enables high-power PoE connectivity for non-PoE device
- Max. power output up to 12VDC/2.5A (30W)
- Simple Plug and Play installation

Works Well With

POI-4000
High Power PoE Injector

FSW-0513
4-Port High Power PoE + 1 FE Switch

Technical Specification

LAN Interface:

IEEE 802.3x, Auto-Detection for 10/100BASE-T and full/half duplex
 Standard Straight-through, or Cross-over CAT 5 Cable
 Automatic MDIX function
 10/100 Mbps RJ-45 Connector x2

LED Indicators:

POWER: Power is ON

Input Power Requirement

Pin Assignment and Polarity: 4/5 (+), 7/8 (-)

*Only support non-standard of PoE source input.

Regulations & Approvals:

FCC Rules Part 15

CE

Physical Dimension: (L x W x H)

120mm x 90mm x 28mm

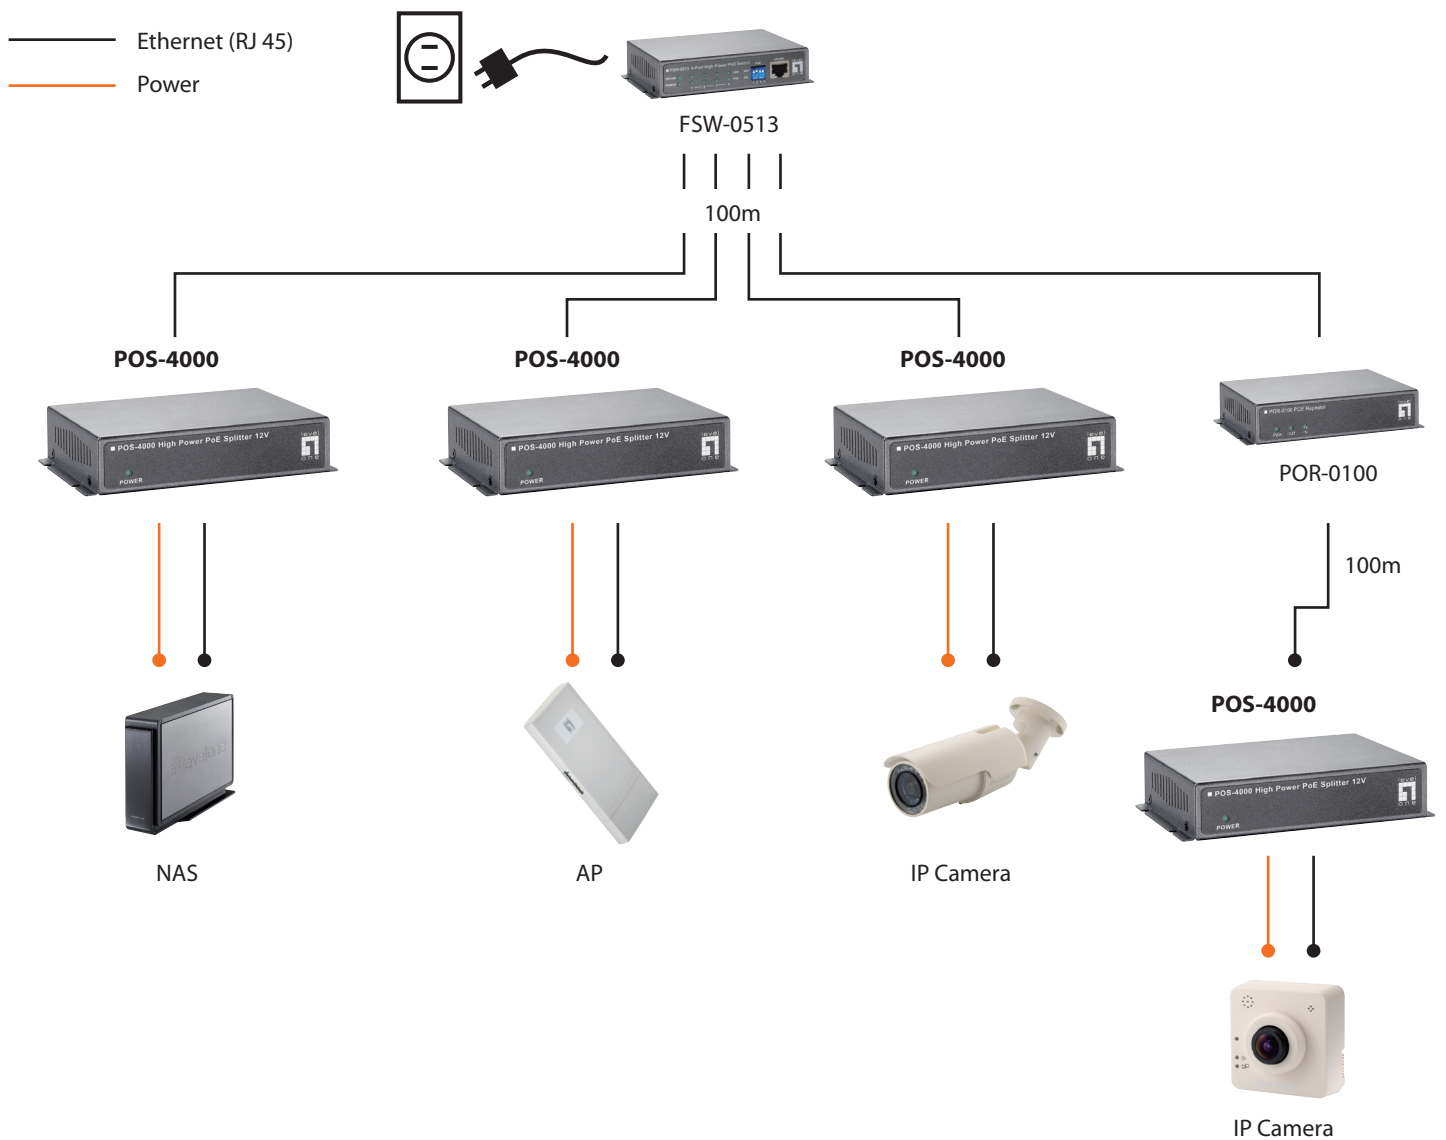

Operating Temperature:

0°C~50°C

Operating Environment:

Humidity: 5% to 95% non-condensing
