

Up to 5A ULDO linear regulator

General features

- 1.5V, 1.8V, 2.5V and 3.3V fixed output voltage
- 3V to 14V input voltage range
- 200mΩ $R_{DS(on)}$ typical @ $t_j = 125^\circ\text{C}$
- 0.6V max. drop-out at 2A
- Excellent load regulation
- 0.6mA quiescent current at any load
- Short circuit protection
- Thermal shutdown

Applications

- Mother boards
- Processor I/O & supplies
- Low voltage memory & chip set supplies
- Graphic & sound cards
- Low voltage logic supplies
- Post regulator for SMPS

Description

The L4957AD devices are **Ultra Low Drop Output** linear regulators with an internal N-channel MOSFET of 200mΩ particularly suitable for low voltage/low dropout applications.

Operating with a input voltage from 3V to 14V they are capable to deliver up to 5A.

The devices are ideal for use as one of the supplies required by processor, for example they are the cost effective and efficient solution for conversion from 3.3V (rail bus) to 2.5V @ 2.5A or to 1.5V with high current rating.

Fast response transient minimise the output capacitor value. A minimum of 22μF assures the stability in all load conditions.

The on-chip trimming technique offers a tighter voltage reference tolerance (with $\pm 2\%$ including line and load variation) beside to ensure a controlled short circuit current. Thermal shutdown provides protection against overload conditions that creates excessive junction temperature.

Name	Pin N°	Description
1	IN	Unregulated input voltage; this pin must be bypassed with a capacitor larger than 10 μ F.
2	GND	To connect to Ground to get 1.5V, 1.8V, 2.5V or 3.3V output.
3	OUT	Regulated output voltage. A minimum bypass capacitor of 22 μ F is required to insure stability.

5 Package mechanical data

In order to meet environmental requirements, ST offers these devices in ECOPACK® packages. These packages have a Lead-free second level interconnect . The category of second level interconnect is marked on the package and on the inner box label, in compliance with JEDEC Standard JESD97. The maximum ratings related to soldering conditions are also marked on the inner box label. ECOPACK is an ST trademark. ECOPACK specifications are available at: www.st.com
