- 2 USB ports (2.1A total) for fast charging mobile devices

Package Includes

- TLP606USBB Protect It! 6-Outlet Surge Protector, Black Housing
- Owner’s manual

Description

Perfect for your home or office workstation, the TLP606USBB Protect It! 6-Outlet Surge Protector features a surge suppression rating of 990 joules to defend your sensitive electronic components against strong surges and spikes. In fact, Tripp Lite will repair or replace any connected equipment damaged by surges up to $20,000 for life (valid in the U.S., Canada and Puerto Rico only).

The TLP606USBB includes full normal mode (H-N) and common mode (N-G/H-G) line surge suppression, as well as technology that filters out disruptive EMI/RFI line noise, preventing interference from disrupting your electronics and inflicting damage or data loss.

Your computer and peripherals plug into six NEMA 5-15R outlets, including one designed to accept bulky transformers without blocking adjacent outlets. Dual USB ports provide 2.1 total amps for fast charging smartphones, tablets, MP3 players and other portable devices. Integrated 15-amp circuit breaker protects all outlets against dangerous overloads. Lighted on/off switch provides one-touch control over connected equipment. Green LED indicates protection status.

The six-foot (1.8-meter) AC power cord with NEMA 5-15P plug allows the TLP606USBB to reach distant outlets, giving you flexibility in placing the surge protector. Keyhole slots incorporated into the bottom panel provide convenient wall or desk mounting options for the black plastic housing.
