EA2070B005

In Production | Recommended | RoHS | REACH

Appearance & Shape

Features

Features
1. Magnetically shielded high-micro and high-loss characteristics can suppress noise in a wide frequency band for digital equipment.
2. Thin (0.2mm-1.0mm) and flexible sheet provides easy handling in assembly process.
3. Holds easily in equipment with adhesive tape
4. EA20xx series: Halogen Free type
   EA21xx series: UL94V-0 certified material is used
   When inquiring, please contact us with size code, referring to "Part Numbering."

Applications

Other Usage	For general

Attention
1.This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued without advance notice. Please check with our sales representatives or product engineers before ordering.
2.This datasheet has only typical specifications because there is no space for detailed specifications.
Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering.

EA2070B005

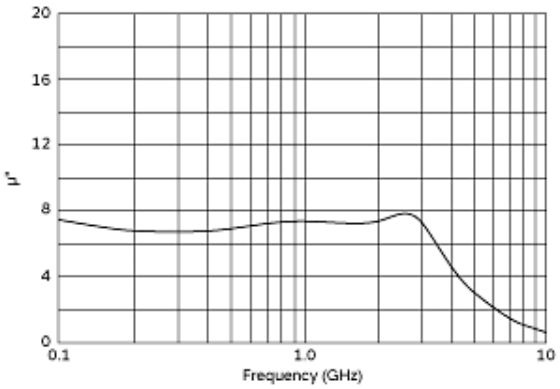

Specifications

Applicable Frequency(typ.)	0.1 to 3.0GHz
Thickness(typ.)	0.05mm
Flame Class	-
Operating Temperature Range	-40.0℃ to 120.0℃

Attention
1.This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued without advance notice. Please check with our sales representatives or product engineers before ordering.
2.This datasheet has only typical specifications because there is no space for detailed specifications.
Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering.

EA2070B005

Product Data

Magnetic Permeability-Reluctance
