GFR204SD

SD/MicroSD/MMC Card Reader/Writer

Secure Digital cards are ubiquitous in consumer electronic devices and have become the dominant means of storing several gigabytes of data in a small form factor. This new device is extremely compact but big on compatibility within the SD memory card family. The unit supports the very latest in memory card format, SDXC (Secure Digital Extended Capacity).

The SD/MicroSD/MMC Card Reader/Writer is a solution for hi-speed, bi-directional image and data transfer. Images and data can be transferred quickly from Secure Digital Card (SD), MultiMedia Card (MMC), or MicroSD memory cards to PCs or Macs. This is particularly useful in many applications, including digital cameras, video cameras, mobile phones, MP3, and other4 mobile devices. This item is an ideal way to bridge the gap between your desktop computer and other CE products.

Just plug the product into your computer's USB 1.1 or 2.0 port and you are ready to go!

- Supports memory card types including SD / MMC
- Support up to 2TB SDXC memory card
- USB 2.0 High Speed data transfer rate up to 480Mbps
- USB powered – NO external A/C adapter required

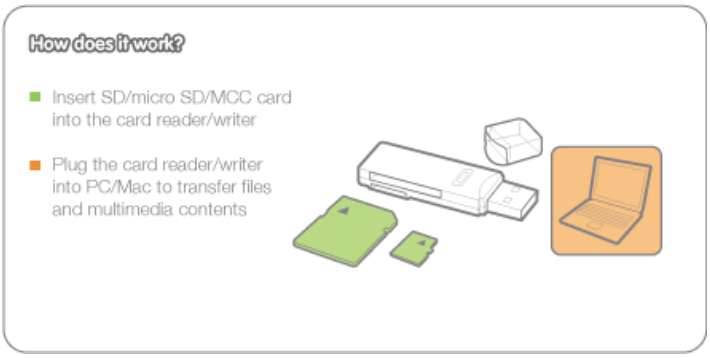

Cards Supported:

- SD
- SDHC
- SDXC
- MicroSD
- MicroSDHC
- MMC II
- RS MMC
- Ultra II SD
- Extreme SD
- Extreme III SD

Requirements
