

c**™**us E169380 ♠ R50044268

 $20.0 \times 9.8 \times 12.0$ 

### Features

- DIL Pitch Terminals .High Sensitivity.
- Conforms to FCC Part 68 1.5kV Surge and Dielectric 1000VAC.
- Fully sealed (immersion cleaning).
- High Reliability bifurcated Contact.
- Application for Telecommunication Equipment,Office Equipment,Security Alarm Systems,Measuring instruments, Medical Monitoring Equipment, Audio Visual Equipment, Flight Simulator, Sensor Control.

# **CAUTION:**

Relays previously tested or used above 10mA resistive at 6VDC maximum or peak AC open circuit are not recommended for subsequent use in low level applications.

- CAUTION: 1.The use of any coil voltage less than the rated coil voltage will compromise the operation of the relay.
  2.Pickup and release voltage are for test purposes only and are not to be used as design criteria.
  3.Unless otherwise stated, the rated coil voltage specified in coil parameter table shall be used for all tests and its application to the relay.

# Characteristics

| Electrostatic capacitance   |  |   |  |
|---|--|---|--|
