

CTF2012SF Series

From 0.4 mH to 4.5 mH

CHARACTERISTICS

Description: Common mode choke coils for power supply line.

Applications: Prevents noise emission, protects AC side from the affects of switching regulators, provides noise elimination and immunity for TV's, audio equipment, etc.

Operating Temperature: -25°C to +85°C including self temperature rise

Insulation Resistance: 100 Mohm minimum between each winding for 1 minute

Dielectric Withstanding Voltage: 2000 Vac between each winding for 1 minute

Packaging: Bulk Pack

Marking: None

Miscellaneous: RoHS Compliant

Additional Information: Additional electrical & physical information available upon request. Different inductance and current products are available as well.

Samples available. See website for ordering information.

SPECIFICATIONS

* Indicates the inductance difference between the coil L1 and L2.

Part Number	Inductance Min. (mH)	Inductance Difference* (μH Max.)	DCR Max. (Ω)	Rated Current (Aac)	Ød (mm)
