## Pick and place machine HSW-10-AP-SD Part number: 540223

**FESTO** 

## **Data sheet**

| Feature                                  | Value  |
|--|--|
| Working stroke                           | 9 mm 15 mm   |
| Size                                     | 10   |
| Max. linear stroke at 90° swivel angle   | 90/90 mm   |
| Z-stroke                                 | 80 mm 100 mm   |
| Type code                                | HSW  |
| Cushioning                               | Pneumatic shock absorber at both ends Soft characteristic curve                              |
| Mounting position                        | Any  |
| Design                                   | Linear guide plus ball bearing<br>Quarter turn actuator<br>Positively driven motion sequence |
| Position sensing                         | For proximity sensor   |
| Operating pressure                       | 4 bar 8 bar  |
| Minimum cycle time                       | 0.6 s  |
| Repetition accuracy end positions        | +/-0.02 mm   |
| Operating medium                         | Compressed air as per ISO 8573-1:2010 [7:-:-]  |
| Information on operating and pilot media | Operation with oil lubrication possible (required for further use)                           |
| Ambient temperature                      | 0 °C 60 °C   |
| Max. torque Mx                           | 0.6 Nm   |
| Max. torque My                           | 0.6 Nm   |
| Max. torque Mz                           | 0.6 Nm   |
| Max. payload                             | 0.5 kg   |
| Maximum process force in y direction     | 30 N   |
| Theoretical force at 6 bar               | 30 N   |
| Product weight                           | 1350 g   |
| Type of mounting                         | Via through-hole and centering sleeve  |
| Pneumatic connection                     | M3   |
| Note on materials                        | Free of copper and PTFE  |
| Stops material                           | High-alloy steel   |
| Cover material                           | Wrought aluminum alloy<br>Anodized   |
| Spring pressure piece material           | High-alloy steel   |
| Base plate material                      | Wrought aluminum alloy<br>Anodized   |
| Retaining bracket material               | Wrought aluminum alloy<br>Anodized   |
| Cross guide material                     | Tempered steel   |

| Feature                | Value                              |
|------------------------|------------------------------------|
| Swivel lever material  | Case-hardened steel<br>Burnished   |
| Link material          | Case-hardened steel<br>Hardened    |
| Sensor rail material   | Wrought aluminum alloy<br>Anodized |
| Fixed link material    | Wrought aluminum alloy<br>Anodized |
| Setting screw material | High-alloy steel                   |
