

LEC-3000A

Fanless Industrial PC with VIA™ ULV Eden 1 GHz CPU

Features

DIN-Rail form factor

The chassis of this product is the smallest that Lanner produces and is meant to be attached to a DIN-Rail.

Cable-free interior

The interior of this product contains no wires, making this industrial product as rugged as possible.

VIA Eden processors

The VIA Eden processors are the worlds most power-efficient dual core processors. The onboard VIA ULV Eden offers 1GHz of processing power.

Fanless

This IPCs lifespan has been extended by removing the most easily damaged component, the fan.

Dust proof design

Solid chassis design with a fanless interior allows for this product to be completely dustproof when installed correctly, insuring longevity of the product.

Screw-locked power plug

This power plug is made to screw directly into the appliance chassis, allowing secure power connection in even the harshest of settings.

Extreme operating temperature

This product is ruggedized to support a wider than usual range of temperatures. Outfitted with industrial components (HDD/SSD, CF, Memory) this appliance can thrive in harsh conditions.

Hardware auto flow control

Designed for use with RS-485 signals, hardware autoflow control allows signals to travel back and forth along the same one-way channel.

LED indicators

LED indicators makes it easy to check working status.

Terminal block connections

This product features serial ports utilize terminal blocks for its I/O ports. Terminal blocks can receive a multitude a different kind of wiring making these ports adaptable for different environments.
