

# Frequency / Counter Input FB1203D

- 1-channel
- Input Ex ia
- Installation in suitable enclosures in Zone 1
- Module can be exchanged under voltage (hot swap)
- Input for frequency, counter, direction of rotation
- Digital input max. 400 Hz
- Positive or negative logic selectable
- Simulation mode for service operations (forcing)
- Line fault detection (LFD)
- Permanently self-monitoring

## Function

The device accepts digital input signals of NAMUR sensors or mechanical contacts from the hazardous area.  
Open and short-circuit line faults are detected.  
The intrinsically safe inputs are galvanically isolated from the bus and the power supply.

## Connection

|                                  |                |                                                                                                                                                                                                                                                              |
|----------------------------------|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Voltage                          | U <sub>o</sub> | 10.5 V                                                                                                                                                                                                                                                       |
| Current                          | I <sub>o</sub> | 23.3 mA                                                                                                                                                                                                                                                      |
| Power                            | P <sub>o</sub> | 61.2 mW (linear characteristic)                                                                                                                                                                                                                              |
| Galvanic isolation               |                |                                                                                                                                                                                                                                                              |
| Input/power supply, internal bus |                | safe electrical isolation acc. to EN 60079-11, voltage peak value 375 V                                                                                                                                                                                      |
| Directive conformity             |                |                                                                                                                                                                                                                                                              |
| Directive 2014/34/EU             |                | EN IEC 60079-0:2018+AC:2020<br>EN 60079-1:2014<br>EN 60079-11:2012                                                                                                                                                                                           |
| International approvals          |                |                                                                                                                                                                                                                                                              |
| ATEX approval                    |                | PTB 97 ATEX 1075 ; PTB 97 ATEX 1074 U                                                                                                                                                                                                                        |
| General information              |                |                                                                                                                                                                                                                                                              |
| System information               |                | The module has to be mounted in appropriate backplanes and housings (FB92**) in Zone 1, 2, 21, 22 or outside hazardous areas (gas or dust). Here, observe the corresponding EC-type examination certificate.                                                 |
| Supplementary information        |                | EC-Type Examination Certificate, Statement of Conformity, Declaration of Conformity, Attestation of Conformity and instructions have to be observed where applicable.
