

GLP-III-532 5-200mW

Portable Green DPSS Laser System

Portable 532nm DPSS Laser System for professional application, featuring 4-way safety system, catch button for convenient operation, and LED status indicator.

4-way safety system:

1. slideable front cover
2. key switch
3. remote connector
4. delayed emission start (~4s).

Specifications	
Wavelength	532 ±1 nm
Output Power	5 – 200 mW
Transverse Mode	TEM ₀₀
Operating Mode	CW
Beam Divergence (full angle)	< 1.5 mrad
Beam Diameter (at the aperature)	~ 1.5 mm
Power Supply	2 x "C" size 1,5V battery (included)
Expected Lifetime	5000 hours
Max. continuous ON time	30s
Warranty period	6 months

LASER RADIATION
AVOID DIRECT EXPOSURE TO BEAM
DO NOT STARE INTO BEAM
NEVER VIEW THROUGH OPTICAL INSTRUMENTS

Dimensions

230 x 38 mm, 0.3 kg
