

C9900-E301 | RS232 PCIe module

i Product status: Regular delivery

PCIe modules from Beckhoff are highly integrated PCI Express plug-in cards that respond to the current trend towards increasingly smaller PC devices.

The C9900-E301 PCIe module can be used to complement Industrial PCs with Beckhoff PCIe module slot by two serial RS232 interfaces. Due to the small dimensions of the module, two Harting ix type B connectors are integrated into the front plate of the PCIe modules instead of the D-sub connectors commonly used with RS232. For adaptation to 9-pin D-sub connectors, the C9900-K920 adapter cable is available.

Product information

Technical Data

Technical data	C9900-E301 RS232 PCIe module
Type	RS232 PCIe module
Interfaces	2 x RS232
Transmission rate	up to 921,600 bps
Internal Structure	2 sockets Harting ix Type B
Additional Information	requires 2 adapter cables C9900-K920 Harting ix Type B to D-sub 9-pin
