- cUL<sub>US</sub> Listed per UL 1863

**BOURNS®**

## 7041 Series – Station Enclosure

The Model 7041 Series combines the Bourns 1740 Series of Coax broadband protectors and station protectors (optional) into a compact residential protector enclosure. Refer to the respective data sheets for additional information on the elements that make up this system.

### How To Order

**7041 - 1X - XX**

**Model Number Designator** \_\_\_\_\_

**Comm Protector** \_\_\_\_\_

0 = None  
1 = Yes (not available in U.S.A.)

**Comm Protector Type** \_\_\_\_\_

E = 155HS-MSP (2378-35-HS) Broadband Voice/Data Systems  
Y = 155HS-BC\* (2378-35-BC) Balance-Sensitive DSL Systems

B = 125EW (2374-01) Sealed Gas Tube (UL, Bellcore)  
C = 125EW-R (2375-01) Sealed Gas Tube (REA, UL, CSA)  
M = J130S (2380-27-01) Solid State Protector (UL)  
O = No Station Protectors

\* BC = For DSL systems requiring capacitive balance ≤ 1pF.  
Standard packaging is 50 units per box.

**Coax Protector Type** \_\_\_\_\_

Part Number	Protector Sparkover Voltage	Description
2 = 1740-15	150V	Standard CATV
3 = 1740-23	230V	CATV/Tel with ring voltage
4 = 1740-35	350V	CATV/Tel with ring voltage

### Product Dimensions

High	Wide	Deep
144.8	86.4	55.9
(5.7)	(3.4)	(2.2)

DIMENSIONS:  $\frac{\text{MM}}{\text{(INCHES)}}$

All offered protectors are UL approved.
