## Part Number ADS-919G-C/883, Sampling A/D Converters

14 Bit, 2MHz (2MSPS), Sampling Analog to Digital (A/D) Converter, 0 to +10V Input range, no pipeline delays, -55°C to +125°C temperature range, High Reliability 883 Screening, RoHS Compliant.

## Specifications

| Resolution                             | 14 Bit                     |
|--|----------------------------|
| Number of Channels                     | 1                          |
| Sampling Rate                          | 2 MHz                      |
| Acquisition Time                       | 190 ns                     |
| Power Consumption                      | 1.8 W                      |
| Differential Non-Linearity Error/Other | 0.5 LSB                    |
| Integral Non-Linearity Error/Other     | 1 LSB                      |
| Package Type                           | SMT                        |
| Input Range 1st (min)                  | 0 V                        |
| Input Range 1st (max)                  | 10 V                       |
| Required Supply Voltage 1st            | 5 V                        |
| Required Supply Voltage 3rd            | 15 V                       |
| Required Supply Voltage 4th            | -15 V                      |
| Total Harmonic Distortion              | -73 dB                     |
| Signal to Noise Ratio                  | 76 dB                      |
| Analog Bandwidth                       | 9 MHz                      |
| Operating Temp. Range (min)            | -55 °C                     |
| Operating Temp. Range (max)            | +125 °C                    |
| RoHS                                   | Yes                        |
| Status                                 | Recommended for new design |
