

Manufactured by TELEFUNKEN (Germany) テレフンケン社 IC 商品

TELEFUNKEN **electronic**
 Creative Technologien

MANUFACTURED BY TELEFUNKEN (GERMANY)

東光株式会社は、テレフンケン社(ドイツ)の代理店です。

Part No.	Contents	
TV & VTR	U2200B-FP	VHF mixer and UHF IF post amplifier
	U2300B-FP	VHF/UHF TV tuner
	U4744B	SAW filter driver
	U4477B	VHF mixer and UHF IF post amplifier
	TDA4426	Video IF amplifier with AFC
	TDA4439	Multistandard video IF amplifier with AFC
	TDA4452	Multistandard video IF amplifier with VTR plug (DIN), ESD Protected
	TDA4453BG	Video IF amplifier for multistandard TV sets and VTR applications, high video bandwidth
	TBA120S	FM IF amplifier and detector
	TBA120T	FM IF amplifier and detector for ceramic resonator
	TBA120U	FM IF amplifier and detector for coils
	TDA4445A	Quasi parallel sound processor with quadrature demodulator
	TDA4480-D	Multistandard quasi parallel sound processor, ESD Protected
	TDA4481-C	Multistandard quasi parallel sound processor for mono TV sets, SCART switch and volume control, ESD Protected
	TDA4482-C	Quasi parallel sound processor for TV stereo application, ESD Protected
	U829BS	FM IF amplifier and demodulator for TV stereo sound processing
	U2829B	Double FM IF amplifier and demodulator for TV stereo sound processing, ESD Protected
	U2840B	FM IF amplifier and demodulator with SCART
	U4490B	Sound IF circuit and mixer for SAT-TV, ESD Protected
	TDA3505G	Analog controlled video processors
TDA4555/56	Multistandard decoder for PAL, SECAM, NTSC, ESD Protected	
U4648B	I ² C bus controlled video processors for color TV receivers, ESD Protected	
U8060B	PAL decoder	
U8442B	Quad 6 bit D/A converter with I ² C bus	
Power Control	TEA1007	Open loop power control for universal and condenser motors
	U208B	Open loop phase control of a.c. loads
	U210B	Speed setting with load current compensation of tacholess universal motors
	U211B	Feedback speed and torque control for universal and other a.c. motors
	U2008B	Low cost speed regulator, Load inrush current limitation for large motors, etc.
	U2010B	Universal motor control with load current compensation
	UAA145/146	Phase control in three phase network
	U490B	One shot power control for electric stapler devices
Telecommunication	U448B	Amplifier for piezoelectric microphones
	U4056B	Electronic speech circuit for telephone sets, modem and telephone responder
	U4058B	Low voltage speech circuit with line powered loudspeaker amplifier
	U4071B	Two tone ringer for telephone sets, signal generator in cars and toys
	U4072B	Two tone ringer for telephone sets, signal generator in cars and toys
	U4074B	Tone ringer interface
	U4076B	Three tone ringer for telephone sets, signal generator in cars and toys
	U4077B	Three tone ringer for telephone sets, signal generator in cars and toys
	U225B	Voltage limiter on symmetrical two wire speech branches in PABX
	U2147B	Broadband compander circuits for noise reduction in radio telephones
	U2790B	900MHz quadrature modulator for digital cellular radio systems
	U2796B	900MHz mixer for cordless telephones
	Automotive	U243B
U641B		Auto wiper control with two modes of operation, intermittent or wipe/wash operation
U6048B		Long term timer for radiator fan control
U5000M		ABUS
U6080B		Dashboard illumination dimmer
U2227B		Driver circuit for ignition transmitter
