

# ■ FEATURES

- 50A Contact Switching Capability
- SPST-NO Contact Arrangement
- Coil Power Dissipation:9W Max.
- Application: For Electric Control System of Communication Power Supply,

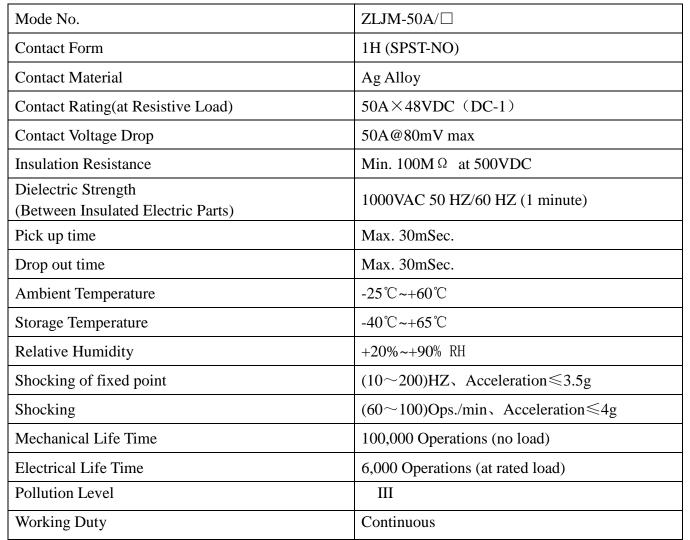

Engineering Machine, Electromotion Forklift, Motor Car,

Train, Watercraft and UPS etc.

• Certificate: CCC UL TUV

# Remarks

- 1. While assemble contactor, tighten torque of nut of terminal screw in main circuit is 4~5N.m; tighten torque of nut of terminal screw in control circuit is 1~1.5N.m.
- 2. Driving circuit power for coil must be no less than coilpower; otherwise, it will reduce cutting capacity of product.
- 3. Continuous applied voltage should not exceed the maximum permission voltage. Otherwise, abnormal heating of coil will shorten the life of insulating coating.
- 4. This contactor is non-waterproof, please don't use in water, solvent, oil and other environment that may contact with the shell or terminal. Otherwise, it may cause abnormal heating due to the burn-in of shell or corrosion, dirty of terminal.
