

HIGH CURRENT MULTILAYER CHIP BEADS EFP SERIES

FEATURES

- These high current Beads do not require wiring, with minimum capacity and lower DC resistance characteristic, they are designed to eliminate EMI for electrical equipment power line use.
- Available in high current which up to 6A.
- Closed magnetic circuit avoids crosstalk, suitable for high density PCB.
- Excellent for high current applications such as power supplies, industrial Equipment, OA products, communication products etc..

DIMENSIONS

UNIT: mm

Type	A	B	C	D
