

## Varistor Products

Line Voltage Operation, Radial Lead

### LA Varistor Series

The LA Series of transient voltage surge suppressors are radial-lead varistors (MOVs) that are designed to be operated continuously across AC power lines. These UL recognized varistors require very little mounting space, and are offered in various standard lead form options.

The LA Series varistors are available in four model sizes: 7mm, 10mm, 14mm and 20mm; and have a  $V_{M(AC)RMS}$  voltage range from 130V to 1000V, and an energy absorption capability up to 360J. Some LA series model numbers are available with clamping voltage selections, designated by a model number suffix of either A or B. The "A" selection is the standard model; the "B" selection provides a lower clamping voltage.

See LA Series Device Ratings and Specifications table for part number and brand information.

#### Features

- Energy Absorption Capability ( $W_{TM}$ ) ..... Up to 360J
- Wide Operating Voltage Range  
 $V_{M(AC)RMS}$  ..... 130V to 1000V
- No Derating Up to 85°C Ambient
- Available in Tape and Reel or Bulk Pack

**AGENCY APPROVALS:** Recognized under the components program of Underwriters Laboratories. Certified by CSA, VDE and CECC.

**AGENCY FILE NUMBERS:** UL E75961, E56529, E135010; CSA LR91788; VDE 116895E; CECC 42201-006.

NOTE: Average power dissipation of transients not to exceed 0.25W, 0.4W, 0.6W or 1W for model sizes 7mm, 10mm, 14mm and 20mm, respectively.

### Power Dissipation Ratings

Should transients occur in rapid succession, the average power dissipation is the energy (watt-seconds) per pulse times the number of pulses per second. The power so developed must be within the specifications shown on the Device Ratings and Specifications table for the specific device. The operating values of a MOV need to be derated at high temperatures as shown in Figure 1. Because varistors only dissipate a relatively small amount of average power they are not suitable for repetitive applications that involve substantial amounts of average power dissipation.

FIGURE 1. CURRENT, ENERGY AND POWER DERATING CURVE

FIGURE 2. PEAK PULSE CURRENT TEST WAVEFORM

O<sub>1</sub> = Virtual Origin of Wave  
 T = Time From 10% to 90% of Peak  
 T<sub>1</sub> = Virtual Front time = 1.25 • t  
 T<sub>2</sub> = Virtual Time to Half Value (Impulse Duration)  
 Example: For an 8/20µs Current Waveform:  
 8µs = T<sub>1</sub> = Virtual Front Time  
 20µs = T<sub>2</sub> = Virtual Time to Half Value

NOTE: If pulse ratings are exceeded, a shift of  $V_{N(DC)}$  (at specified current) of more than  $\pm 10\%$  could result. This type of shift, which normally results in a decrease of  $V_{N(DC)}$ , may result in the device not meeting the original published specifications, but does not prevent the device from continuing to function, and to provide ample protection.

### Tape and Reel Ordering Information

Crimped leads are standard on LA types supplied in tape and reel and are denoted by the model letter "T". Model letter "S" denotes straight leads and letter "U" denotes special under-crimped leads.

Example:

| STANDARD MODEL | CRIMPED LEADS | STRAIGHT LEADS | UNDER-CRIMPED LEADS |

NOTE: Dimensions in millimeters, inches in parentheses.

To order this crimped and trimmed lead style, standard radial type model numbers are changed by replacing the model letter "A" with "C".

Example:

| STANDARD CATALOG MODEL | ORDER AS: |
|------------------------|-----------|
| V130LA2                | V130LC2   |

• For crimped leads without trimming and any variations to the above, contact Littelfuse.

• For 10±1mm lead spacing on 20mm diameter models only; append standard model numbers by adding "X10".

Example:

| STANDARD CATALOG MODEL | ORDER AS:    |
|------------------------|--------------|
| V130LA20A              | V130LA20AX10 |

#### Ordering Information

LA series Varistors are shipped standard in bulk pack with straight leads and lead spacing outlined in the package dimensions on page 4-13. Contact your Littelfuse sales representative to discuss the non-standard options outlined below.
