

MINI-CIRCUITS DESIGNER'S KITS
SPEED UP
 THE SOLUTION!

RoHS compliant

DC to 8 GHz

ERA-SM+ Features

- Wideband, 50 Ω
- Up to 13.0 dBm typ. output power
- Low thermal resistance
- Miniature microwave amplifier
- Plastic micro-x surface mount package
- Usable to 10 GHz

only **\$49⁹⁵** ea. kit (3 models, 10 of each, 30 total)

Kit K1-ERASM+ Electrical specifications of each model

Evaluation boards available, \$79.95
 See individual model data sheets.

Protected under U.S. Patent 6,943,629

▲ Low frequency cutoff determined by external coupling capacitors. f_U is the upper frequency limit for each model.

1. Permanent damage may occur if any of these limits are exceeded. These ratings are not intended for continuous normal operation.

2. Supply voltage must be connected to pin 3 through a bias resistor in order to prevent damage. See "Biasing MMIC Amplifiers" at minicircuits.com/applications.shtml. Reliability predictions are applicable at specified current and normal operating conditions.
