GUS404

4x4 USB 2.0 Peripheral Sharing Switch

The IOGEAR 4x4 USB switch is a USB 2.0 peripheral sharing switch that allows four computers to share up to four USB devices, such as a keyboard, mouse, printer, portable hard drive, etc.

The GUS404 eliminates the cost of having multiple sets of USB devices for each computer. It also cuts down the cable clutter of your work area. Switching from computer to computer is easy with the simple press of a button and an LED to indicate the selected computer. You can also charge and sync your mobile devices through this unit.

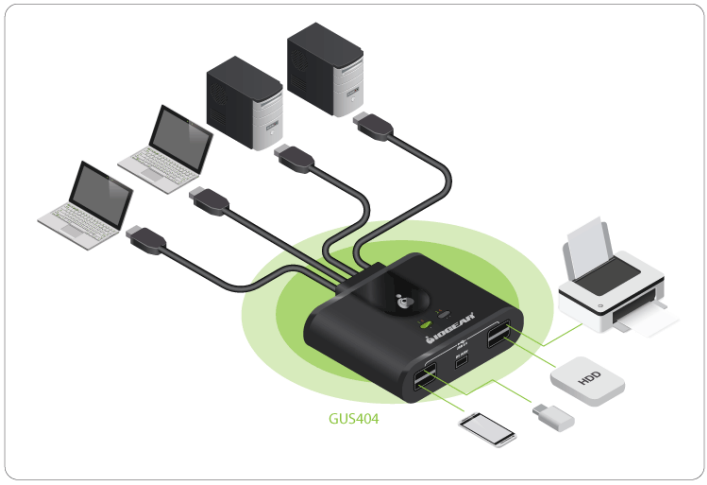

The GUS404 is USB 2.0 compliant with a data transfer rate of up to 480 Mbps and is hot swappable. It comes with over current protection to prevent your devices from being damaged by sudden current changes from the surrounding environment.

- Enables four computers to share up to 4 USB peripheral devices, more devices can be supported by adding USB hubs
- Switching from computer to computer is easy with the press of a button
- USB 2.0 compliant, supporting data transfer rates of up to 480Mbps
- Charge mobile devices such as smart phones on any of the USB device port
- LED indicators the port focus for the active computer
- Over-current protection
- Supports hot-plugging which allows easily add or remove computers connected to the installation without having to power down the switch
- Molded in cable design simplifies the connections
- Cable lengths: USB output cables = 3.8ft, selection button cable = 6ft
