

microSD USB Reader

COM-13004

Description: This is an awesome little microSD USB reader. Just slide your microSD card into the inside of the USB connector, then stick this into a USB port and the card's contents will pop up on your computer. Very sneaky - we love it! This little guy is great for pulling data logs off microSD media. This reader also includes an indicator LED which will light up if a microSD card is present. This device is completely plug-and-play, so no drivers needed.

Note: The microSD card is sold separately.

Features:

- TF/microSD/microSDHC Card High-Speed Reader
- USB Interface
- Removable Cap
- Keychain Lanyard
