Wide-Angle Coverage Directional Antenna

PCS/DCS AND 2.4 GHz WIDE ANGLE COVERAGE DIRECTIONAL ANTENNA

Laird's 135°, wide H-plane antenna offers systems engineers an alternative to wall mounting omnidirectional antennas. Wall-mount, omnidirectional antennas can suffer unduly from multipath components created by the wall itself. The antenna dimensions are 6 x 3 x 2 inches and coax length and connector type can be adapted to the requirement.

FEATURES

- Suitable for indoor or outdoor applications
- Articulating mounts available

MARKETS

- Offices
- Healthcare facilities
- Educational and industrial campuses
- Shopping malls
- WiMAX
