## PRODUCT DESCRIPTION

Cerakote® H-Series Ceramic Firearm Coatings are designed to provide a high- quality, longlasting finish for firearms and firearm accessories. Cerakote® H-Series coatings are durable, corrosion-resistant and provide unparalleled levels of hardness and adhesion. These coatings are also resistant to most solvents and chemicals. The foundation for Cerakote® H-Series coatings is a unique ceramic technology that imparts both flexibility and excellent wear resistance to the final coating.

In addition to performance, the **Cerakote® H-Series** line of products is designed for ease of application. Each color is VOC-exempt and available in a two-component, oven-cure system.

Cure Schedule Options:

250°F for 2 hours 300°F for 1 hour

**Cerakote® H-Series** Ceramic Firearm Coatings are currently available in various metallic or non-metallic finishes and different gloss levels. Visit <a href="https://www.nicindustries.com">www.nicindustries.com</a> to view a complete color chart.

Cerakote<sup>®</sup> H-Series Firearm Coatings are recommended for barrels, actions, frames, receivers, and firearm accessories.
