

Film capacitors – AC capacitors

Motor run capacitors

400 V; class A; 85 °C / 450 V; class B; 85 °C

Series/Type: **B32356 – MotorCap P2 Compact**

Date: June 2009
Version: 3.0

Construction

- Dielectric: polypropylene film
- Electrode: segmented metallized film
- Plastic can and top material to IEC 60335-1
- Dry type

Features

- Self-healing properties
- Low dissipation factor
- P2 safety class to IEC 60252-1 2001-02
- High insulation resistance
- Case IP 53 protected
- IEC/EN 60335 compatible

Typical applications

- For general sine wave applications, mainly as motor run capacitor

Terminals

- Twin core cable type PP 2 × 0.50 mm², 600 V, 95 °C
- Connectors on request

Mounting parts (optional)

- Threaded stud at bottom of can (M8, max. torque = 5 Nm)
- Fast fixation for mounting into a hole of Ø 8 mm

Technical data and specifications

Reference standards	IEC 60252-1 2001-02 / EN 60252 2001	
Safety class to IEC 60252-1 2001-02	P0 P2	
Life expectancy to IEC 60252 2001	400 V/85 °C: 30000 h (class A) 450 V/85 °C: 10000 h (class B)	
Rated capacitance C _R	See dimensions table	
Tolerance	±5%, other tolerances upon request	
Rated voltage V _R	400, 450 V AC	
Rated frequency f _R	50/60 Hz	
Maximum ratings		
Maximum permissible voltage V _{max}	1.1 · V _R (V _R = rated voltage)	
Maximum permissible current I _{max}	1.3 · I _R (I _R = rated current)	

Film capacitors – AC capacitors

Motor run capacitors

B32356 – MotorCap P2 Compact

Test data	
AC test voltage terminal to terminal V_{TT}	$2 \cdot V_R, 2 \text{ s}$
Insulation resistance R_{ins} or time constant τ at 20 °C, rel. Humidity $\leq 65\%$ (minimum as-delivered values)	3,000 s
Dissipation factor $\tan \delta$ at 20 °C	$\leq 1.0 \cdot 10^{-3}$ (120 Hz)
Maximum rate of voltage rise dV/dt_{max}	10 V/ μ s
Climatic data	
Climatic category	25/085/21 to IEC 60068-1
Lower category T_{min}	-25 °C
Upper category T_{max}	+85 °C
Damp heat test t_{test}	21 days
Mechanical and thermal properties	
Ball pressure test to IEC 60309-1 sec. 27.3	20 N at 125 °C
Plastic can and top disk material	Compliant to EN 60252
■ UL 94 V2 compatible ■ Glow wire test to IEC 60695-2-1/0 and -2-1/1 Test temperature 550 °C for $I_R \leq 0.5 \text{ A}$ Test temperature 750 °C for $I_R > 0.5 \text{ A}$ ■ Part is compatible to EN 60335-1	Self-extinguish within 2 seconds of withdrawing glow wire without igniting wrapping tissue to GWIT
Tracking Test to IEC 60112 solution A	> 250 V
Protection class to IEC 60529 2001	IP 53
Compatibility to RoHS	
Compliance to directive 2002/95/EC	
Approvals	
VDE – 400 V/85 °C: 30,000 h (class A)	Approved
VDE – 450 V/85 °C: 10,000 h (class B)	Approved

Dimensional drawing

Mounting options

* = 1: can without mounting

* = 2: can with M8 bolt

* = 5: fast fix mounting

Ordering codes and packing units

V_R	C_R	Max. dimensions $d \times l$	Ordering code (composition see below)	Packing units
V AC	μF	mm		pcs.
400 / 450	2.0	25 × 50	B32356B4205J0*#	112
	2.5	25 × 50	B32356B4255J0*#	112
	3.0	25 × 50	B32356B4305J0*#	112
	3.5	30 × 56	B32356B4355J0*#	112
	4.0	30 × 56	B32356B4405J0*#	112
	5.0	30 × 56	B32356B4505J0*#	112
	6.0	30 × 62	B32356B4605J0*#	84
	7.0	35 × 56	B32356B4705J0*#	84
	7.5	35 × 62	B32356B4755J0*#	84
	8.0	35 × 62	B32356B4805J0*#	84
	9.0	35 × 71	B32356B4905J0*#	84
	10	35 × 71	B32356B4106J0*#	84
	11	40 × 72	B32356B4116J0*#	60
	12	35 × 96	B32356B4126J1*#	84
	12	40 × 72	B32356B4126J0*#	60
	13	40 × 72	B32356B4136J0*#	60
	15	45 × 72	B32356B4156J0*#	60
	18	50 × 96	B32356B4186J0*#	32
	20	50 × 96	B32356B4206J0*#	32

Composition of ordering code:

*: construction

- 1 plastic can
- 3 plastic can with M8 bolt
- 5 plastic can with fast fixation device available for diameters 30 mm, 32 mm and 35 mm, others on request

#: cable length (dimension 'B' in drawing)

- 2 200 mm
- 3 300 mm

⚠ Please read "Applications warning, installation and maintenance instructions" and the "General Safety Data Sheet for Power Capacitors" issued by ZVEI, which are available on the internet at www.epcos.com/ac_capacitors, to ensure optimum performance and to prevent products from failing, and in worst case, bursting and fire. Information given in the data sheet reflects typical specifications. You are kindly requested to approve our product specifications or request our approval for your specification before ordering.

Important notes

The following applies to all products named in this publication:

1. Some parts of this publication contain **statements about the suitability of our products for certain areas of application**. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out **that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application**. As a rule, EPCOS is either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether an EPCOS product with the properties described in the product specification is suitable for use in a particular customer application.
2. We also point out that **in individual cases, a malfunction of electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified**. In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of an electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of an electronic component.
3. **The warnings, cautions and product-specific notes must be observed.**
4. In order to satisfy certain technical requirements, **some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as hazardous)**. Useful information on this will be found in our Material Data Sheets on the Internet (www.epcos.com/material). Should you have any more detailed questions, please contact our sales offices.
5. We constantly strive to improve our products. Consequently, **the products described in this publication may change from time to time**. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order. We also **reserve the right to discontinue production and delivery of products**. Consequently, we cannot guarantee that all products named in this publication will always be available. The aforementioned does not apply in the case of individual agreements deviating from the foregoing for customer-specific products.
6. Unless otherwise agreed in individual contracts, **all orders are subject to the current version of the "General Terms of Delivery for Products and Services in the Electrical Industry" published by the German Electrical and Electronics Industry Association (ZVEI)**.
7. The trade names EPCOS, BAOKE, Alu-X, CeraDiode, CSMP, CSSP, CTVS, DSSP, MiniBlue, MKK, MLSC, MotorCap, PCC, PhaseCap, PhaseCube, PhaseMod, PhiCap, SIFERRIT, SIFI, SIKOREL, SilverCap, SIMDAD, SIMID, SineFormer, SIOV, SIP5D, SIP5K, ThermoFuse, WindCap are **trademarks registered or pending** in Europe and in other countries. Further information will be found on the Internet at www.epcos.com/trademarks.
