Rail Depth Cable Manager *RDCM Series*

Features

- Constructed in 16-gauge steel.
- Free-floating design allows manager to fully adjust in depth.
- Cable pass-through holes are evenly spaced.
- The universal design allows the manager to support cables on both racks and cabinets.
    - Specifically designed for use with the Hammond C4F30*, C4RR30* and 4-Post Racks
- Easily mounts to EIA mounting rails.
- Cable tie-off slots help keep cables managed.
- Sold individually.
- Requires two pairs of mounting rails to install.
- Finished in smooth black powder paint.
- Requires mounting hardware.
- Tested to nearly double the suggested cable load rating of 100 lbs.
- RoHS Compliant.
- Manufactured in North America.

	Overall Dimensions				Rack
Part No.	**Height**	**Width**	**Min Depth**	**Max Depth**	**Units**
