Versions	Recommended Key grid	Illumination		Overall height	Contacts	Page
		Keyswitch	Signal indicator			
RF 19 H (high profile) 	≥ 24 mm		Fully illuminated	12.5 mm	Gold or Silver	4 - 60
Main switch KN19 	≥ 19.05 x 38.1 mm	Non-illuminated	Spot illuminated with 1 LED	9.7 mm	Silver	4 - 75
RK 90 System 	≥ 12.50 mm	Depending on the type of keyswitch used: – RACON (without plunger) – RF 15/RF 15 N – RF 19 – KN 19				4 - 79
RG 85 III System 	≥ 35/55 mm	Edge-illuminated and symbol illumination	Fully illuminated	14 mm	Silver	4 - 95
Full-Travael Keyswitch RS 76 	≥ 19.05 mm	Non-illuminated	Fully/spot illuminated	15.5/15.9 mm (with key caps)	RS 76 M: Gold RS 76 C: contactless	4 - 115
Keyswitches for Conductor Board 	≥ 19.05 mm	Non-illuminated		19.5 mm (without key)	Gold	4 - 143

Examples for Applications Standards

RF 15

CE-Conformity

The products of the Chapter "PCB Keyswitches" can – relating to the CE-conformity according to the Low-Voltage Directive 73/23/EEG – be divided into the following groups:

All products with an operating voltage $U_B > 50 V$

F. ex. Short-Travel Main Switch KN 19, for this product the Low-Voltage Directive 73/23/EEG applies.

All products with an operating voltage $U_B < 50 V$

F. ex. RACON, RF 15, RS 76, for these components no directive applies.

RG 85 III System

Single parts, accessories and illumination

No directive applies for these products.

EMC-Law

The components of this catalogue are within the meaning of the law concerning the electromagnetic conformity (= EMC-Law) "basic components as, for ex., switches, signal lamps or like" and, therefore, do not fall within the scope of the EMC-Law.

Declarations of Conformity

Declarations of conformity for all concerned products are available and can be delivered upon request. Please always state the exact order reference of the respective product.

Marking

The marking will be corresponding to the Low-Voltage Directive 73/23/EEG resp. the Directive "CE-Marking 93/68/EEG" either on the packing or on the product itself or on the shipping documents.

UL-approval

for **RACON 8/12, KN 19 and Short-Travel Keyswitches RF 15/19**

The Short-Travel Main Switch KN 19 and data entry systems which are built with Rafi short-travel switches according to our design proposals meet the requirements of the UL approvals for the American market.

UL file no. for KN 19: E 116362
 UL file no. for data entry systems: E 202520

RF 15 with RK 90 System

General data

RACON short-travel keyswitches with sealed contact system and distinct key click, excellent switching reliability. For use under an overlay or with RK 90 keycaps. Print and SMD versions available (suitable for automatic assembly).

RACON 8

General data

RACON short-travel keyswitches offer an extremely high switching reliability while needing very little space. They can be arranged as single keys, in rows or key blocks.

When arranged under an overlay, RACON keyswitches should be combined with plungers.

The features at a glance:

- Suitable for the most common soldering methods
 - Wave soldering bath for print versions
 - Reflow soldering (SMD)
 - Manual soldering
- SMD version suitable for processing with an automatic SMD assembly machine

RACON 12 V with vertical adapter

General data

The RACON 12 V version can be used, for example, for PC plug-in boards and for measurement and control engineering applications. The vertical mounting adapter (support element) absorbs the operating force so that the pressure on the soldered terminals is reduced. For this mounting arrangement, the keyswitch is provided with two horizontal terminals on one side.

RACON 12 i

General data

Application note

Low-profile keyboards with RACON 12 i components should be designed with a grid spacing of 15.24 mm. With this grid, frame webs remain free between the individual keys. The overlay can be glued onto these frame webs; we recommend area embossing over the keys for the overlays. If our RK 90 system design is used, we recommend the 9 x 9 mm keycaps.

Technical data

General information

Colour of lens	see order block
Recommended key grid	15.24 x 15.24 mm
Key grid max.	12.5 x 12.5 mm
