

SHIELDED POWER INDUCTOR

P7602 Family

Features

- * Lead-free (Pb-free)
- * RoHS compliant
- * Magnetic Shielding
- * High Current (to 10A)
- * Low DCR (to 8mΩ)
- * Low profile (<4mm)
- * Surface Mount
- * Flat top for pick & place

Applications

- * DC-DC Converters

DESCRIPTION

The P7602 family comprises low profile, shielded power inductors. Components are available in two mechanical sizes, suited to low-profile applications. The larger 1003 size has lower DCR and higher current rating.

The family provides reliable self-leaded Pb-free terminations. Parts are compliant with RoHS Directive 2002/95/EC, and suitable for Pb-free and conventional placement and reflow.

P7602-0603

Notes

1. Inductance measured at 100kHz, 1V (P7602-1003 100mV).
2. Rated current, I_{RMS} , is the current at which the temperature rise is 40°C (max).
3. Saturation current, I_{sat} , is the DC current at which the zero-current inductance drops by 30% (typ).
4. Rated DC Current, I_{DC} , is the DC current at which the temperature rise is 30°C, or the zero-current inductance drops by 35%, whichever current is less.
5. Operating temperature -25°C to +105°C.
6. For non-standard inductance values, please contact Profec.

CONSTRUCTION

Dimensions shown are in millimetres
Terminal plating JESD97 category = e4.
Recommended reflow solder profile: 2 minutes @ 150-200°C, 10 seconds @ 260°C; time above 217°C 60 seconds maximum.

ORDERING CODE

ABSOLUTE MAXIMUM RATINGS

Storage temperature	-40°C to +125°C
Operating temperature	-25°C to +105°C
Soldering temperature profile peak	260°C 10s

Handle in accordance with IPC/JEDEC J-STD-033 procedure for components classified as IPC/JEDEC J-STD-020 Moisture Sensitivity Level 2.
