2. Dimensions in inches over millimeters.

GENERAL SPECIFICATIONS

Peak Power: 10 kW max.
 CW Input: 600 W max.
 Impedance: 50 Ω nom.
 Operating Temperature: -55° to +85°C
 Other Coupling Values: Available
 Other Frequency Bands: Available

General Notes:

- The octave band CBN series and multi-octave CCN series of high power Directional Couplers are designed to monitor signals with minimal perturbation to the main line. Each coupler uses air-line coupling technology for simple reliable operation. They are well suited to transmitter carrier power monitoring, leveling and VSWR protection circuits.
- These units comply with MIL-C-15370 and can be supplied screened for compliance with additional specifications you designate for military and aerospace applications requiring higher reliability.
