

Z8 Encore!®

MCU Development Kit

OVERVIEW

Get the ZiLOG Z8 Encore!® Microcontroller (MCU) Development Kit today to see how perfectly the Z8 Encore!® MCUs fit into applications such as motor control, security systems, systems monitoring, personal electronic devices, home appliances, and home automation. You will receive a complete development platform – including all hardware and software – plus a full-version ANSI C-Compiler.

ZiLOG delivers extra value after you have finished evaluation, because our kit then serves as your complete Z8 Encore!® product development solution. Evaluate, Design, Build – it's that simple. There's nothing more to buy. Discover the value and flexibility Z8 Encore!® MCU brings to your next design. Order your ZiLOG Z8 Encore!® MCU Development Kit today!

Z8 Encore!® MCU Development Kit Contents

Hardware

- Z8 Encore!® Development Board
- Serial or USB Smart Cable
- 5 V DC Universal Power Supply

Software

- ZDS II Integrated Development Environment (ZDS II-IDE)
- ANSI C-Compiler
- Sample Code

Documentation/CD-ROM

- Development Kit Quick Start Guide
- Development Kit User Manual
- ZDS II-IDE User Manual
- eZ8 CPU User Manual
- Product Specifications
- Product Briefs
- Application Notes

Development Board Features

- Z8 Encore!® MCU
- Three LEDs
- RS-232 interface
- IrDA transceiver
- Two push buttons, RESET and TEST
- 5 V DC power connector
- On-Chip Debugger interface
- Header for ADC input (not present on 8-pin board)
- Prototyping area
- External interface connectors
- 2.7 V to 3.6 V operating range with 5 V-tolerant inputs

Z8 Encore!® MCU Development Kit

Z8 Encore!® MCU ZDS II-IDE GUI

ZiLOG Developer Studio II-Integrated Development Environment is a complete suite of software tools that supports development with the Z8 Encore!® MCU. Its easy-to-use Windows-based GUI provides an environment that accelerates the edit, compile, and debug cycle. Included in ZDS II is a language sensitive editor, Project manager, Compiler, Assembler, Linker, Librarian, and Debugger.

C-Compiler

A full-version ANSI C-Compiler is included in this kit at no additional cost allowing you to begin your design immediately. The C-Compiler supports a powerful configurable optimizer allowing code to be optimized for speed or size.

Smart Cable

This small circuit board provides reliable and robust communication between your PC and the development board. Use it for your development board and again with your final product's hardware.

Serial Smart Cable converts RS-232 signals to communicate with the of the eZ8 core.

P/N: Z8ENCORE000ZAC

USB Smart Cable is compatible with both USB high speed and full-speed standards and converts the signals sent from the USB port to your development PC to communicate with the On-Chip.

P/N: ZUSBSC00100ZACG (RoHS)

P/N: ZUSBOPTSC01ZACG (RoHS)

Order your ZiLOG Development Kits at <http://www.zilog.com> to get your applications to market in record time.
