

Product Change Notice

Issue Date: 8th September 2011

Change Type:

Datasheet related changes: Datasheet Format standardization

Parts Affected:

Refer to Appendix A

Description and Extent of Change:

Avago is implementing datasheet format standardization for all mmWave datasheets.

1. Standardize ESD table
2. Standardize Package and Connection diagram
3. Reformat all data table
4. Include Assembly Note information,
 - AN5520 - AMxP-XXXX Production Assembly Process (Land Pattern A)
 - AN5521 - AMxP-XXXX Production Assembly Process (Land Pattern B)

Reasons for Change:

This is part of Avago's continuous improvement activities. The purpose of the change is to standardize all mmWave datasheet.

Effect of Change on Fit, Form, Function, Quality, or Reliability:

The device specification will remain the same as listed in the previous datasheet.

Effective Date of Change:

The new datasheet for mmWave package product will be implemented on 1st Nov 2011.

Qualification Data:

No Qualification is required for this change.

These changes have been reviewed and approved by Avago Technologies engineers and managers per Avago Technologies procedure: Change Control and Customer Notification, A-5962-6052-80, 5957-0258-80 and 971-5507-82

Please contact your Avago Technologies field sales engineer or Contact Center (<http://www.avagotech.com/contact/>) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
