

Technical drawing of a rectangular plate with a central hole and a central slot. The plate has a total width of 25 and a total height of 14. The central hole has a diameter of 11. The central slot has a width of 8 and a height of 2. The plate is divided into three sections: a left section of width 10, a central section of width 8, and a right section of width 10. The plate is made of a material with a grid pattern, and the central hole and slot are made of a different material with a cross-hatch pattern.

Technical drawing of a reinforced concrete slab cross-section. The drawing shows a slab with a total width of 10 x 2 = 20. The reinforcement consists of 8 top bars and 2 bottom bars. The slab is supported by a wall on the left and a column on the right. The wall has a thickness of 15. The column has a diameter of 15. The slab is shown with a wavy line indicating the reinforcement layout. The drawing includes dimensions for the slab width, reinforcement spacing, and support dimensions.

*Metal plating of plated-through hole
