

Helping Customers Innovate, Improve & Grow

Description

The TX-600 Series TCXO is designed utilizing full analog technology. Extremely low phase noise and smooth frequency vs temperature are achieved. Innovative packaging design allows for high volume manufacturing as well as low profile.

Features

- High Shock Survival > 20,000 G (TX-600)
- Commercial application (TX-601)
- Low Phase Noise, Low G-Sensitivity
- Stratum 3 Compliant
- Fully RoHS Compliant 
- Surface Mount, Low Profile
- Rugged Construction
- Frequency Range: 5 MHZ to 100 MHZ
- Previous Model: C2280

Applications

- Military Portable Radios
- GPS Telemetry
- Test and Measurement Equipment
- Wi-Max Basestations
- Wireless Communications
- Wireline Switches

Ordering Information

Notes:

1. Contact factory for improved stabilities or additional product options. Not all options and codes are available at all frequencies.
2. Unless other stated all values are valid after warm-up time and refer to typical conditions for supply voltage, frequency control voltage, load, temperature (25°C).
3. Phase noise degrades with increasing output frequency.
4. Subject to technical modification.
5. Contact factory for availability.
