

The 1772 laser component is characterized for use as a CW optical source in CATV and DWDM networks. The 1772 is dc-coupled with a built-in TEC, thermistor, and monitor photodiode. The device is mounted in a 14-pin, OC-48 pinout compatible butterfly package with the optical isolator mounted on the TEC. The 1772 incorporates a high efficiency coupling scheme to deliver 40 mW, 50 mW, and 63 mW of CW optical power.

## Applications

- DWDM
- CATV
- Free Space Optics

## Features

- 40, 50, 63 mW Optical Output Power
- OC-48 Pinout Compatible
- Telcordia Technologies™ GR-468 Compliant
- PM Fiber
- -20°C to +65°C Operating Temperature Range
- Monitor Photodiode

## Performance Highlights

## Absolute Maximum Ratings

Stresses in excess of the absolute maximum ratings can cause permanent damage to the device. These are absolute stress ratings only. Functional operation of the device is not implied at these or any other conditions in excess of those given in the operational sections of the data sheet. Exposure to absolute maximum ratings for extended periods can adversely affect device reliability.

1. Linewidth (Δν) is calculated using this formula:  $\Delta\nu = \Delta RIN(f)\{16\pi(D\lambda^2L/c)2f^2\}-1$

Where: **D** = fiber dispersion; **L** = fiber length (65km); **C** = velocity of light in free space (3.00E+8); λ = opt center wavelength  
 $\Delta RIN(f)$  = RIN through fiber (RIN<sub>65km</sub> – RIN<sub>0km</sub>); **f** = the measurement frequency (860MHz)

## Laser Safety

This product meets the appropriate standard in Title 21 of the Code of Federal Regulations (CFR). FDA/CDRH Class 1M laser product. This device has been classified with the FDA/CDRH under accession number 0220732.

All Versions of this laser are Class 1M laser product, tested according to IEC 60825-1:2007/EN 60825-1:2007

Single-mode fiber pigtail with FC/APC connectors (standard).

Wavelength = 1.5  $\mu\text{m}$ .

Maximum power = 100 mW.

Because of size constraints, laser safety labeling (including an FDA class 1M label) is not affixed to the module, but attached to the outside of the shipping carton.

Product is not shipped with power supply.

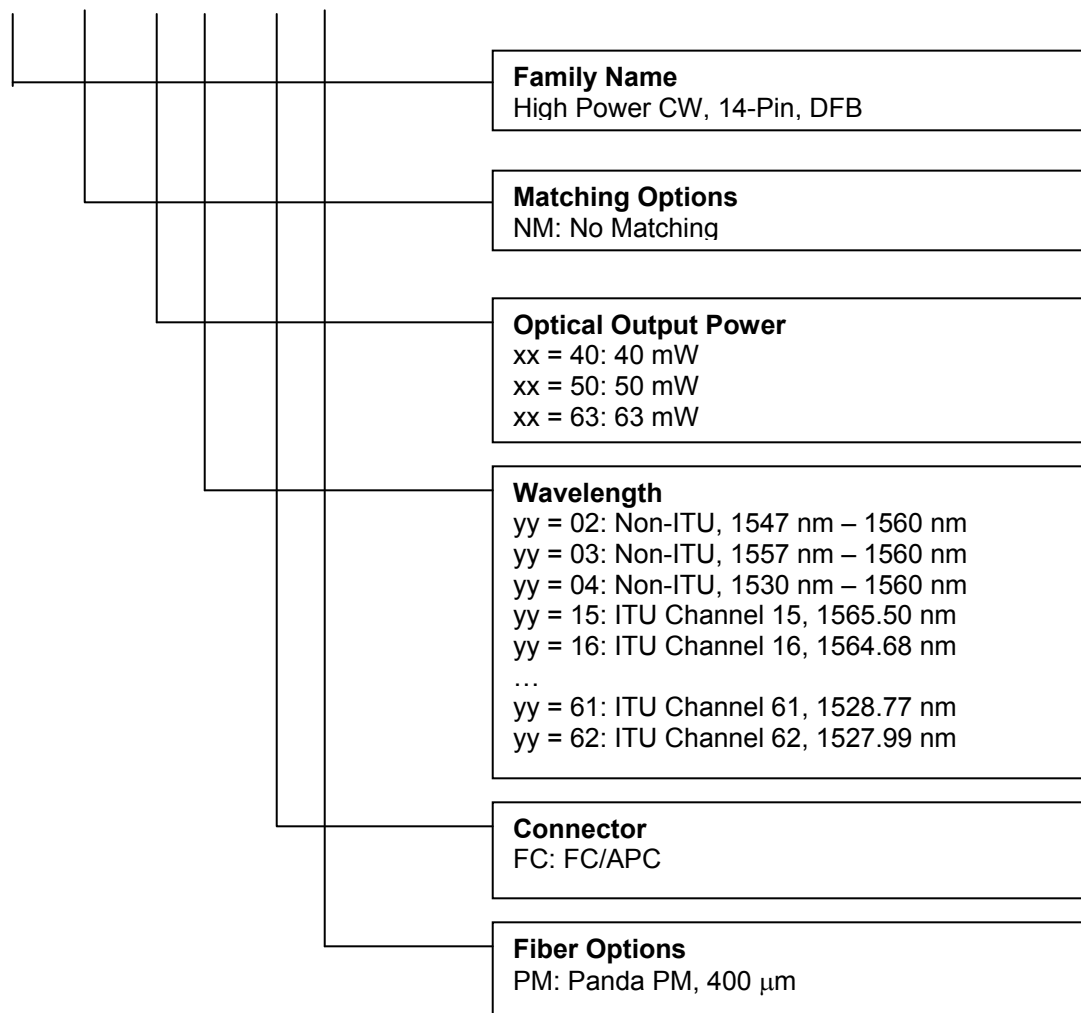

**Caution: Use of controls, adjustments and procedures other than those specified herein may result in hazardous laser radiation exposure.**

**Viewing the laser output with certain optical instruments (for example, eye loupes, magnifiers and microscopes) within a distance of 100 mm may pose an eye hazard.**
