539CH1

ULM® Ultra Low Maintenance

Nickel-Cadmium Aircraft Battery

Saft is a leader in providing completely reliable low maintenance, low life-cost Ni-Cd batteries for commercial, business and military aircraft operation, with guaranteed service.

ULM® batteries are the latest generation offering lower life cost by extending the duration of maintenance free operations. They match dimensions of standard products in form, fit and function thereby providing an **easy retrofit solution**.

Approved by Boeing as an upgrade solution for the 4579 battery.

Key features

- Extended battery service life
- Increased capacity
- Commonality with other Boeing aircraft

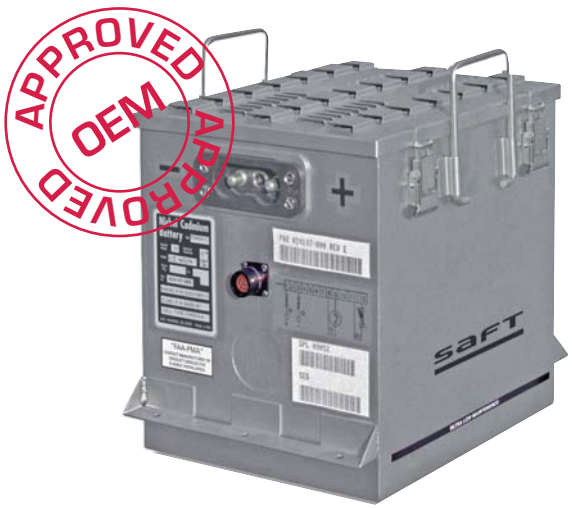

Key benefits

- Lower life-cycle costs
- Longer maintenance free periods
- From 750 oph to 2500 oph
- Standardized inventory leads to reduced cost

Applications*

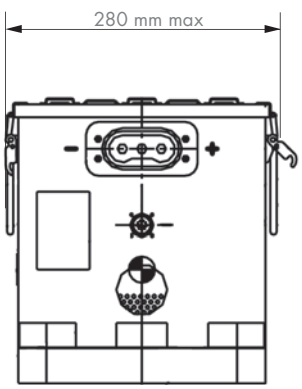

Fixed wing aircraft

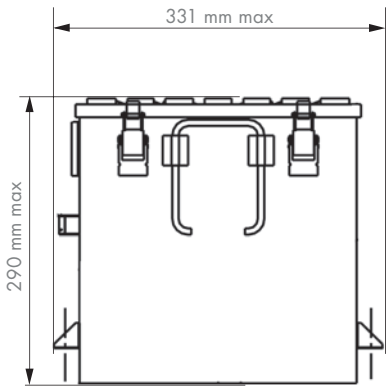

Boeing 737-600, -700, -800, -900
Boeing 747-400, -400F
Boeing 757-200, -300
Boeing 767-200, -300, -400ER
Boeing 767-400
*Must be used in conjunction with the ELDEC 8-930 battery charger

Electrical characteristics	
Nominal voltage	24 volts
Nominal capacity	53 Ah at 1 hour rate
Recommended constant charging voltage	28.5 volts

Dimensions	
Length	331 mm / 13 in
Width	280 mm / 11 in
Height	290 mm / 11.4 in
Weight	43.5 kg / 96 lbs
