
Manufacturing Notes:

1. Material: NEMA FR-4
2. Total 4 layers, 1 oz. Cu internal, 2 oz. Cu external
3. Inter-layer dielectric thicknesses to be approx 0.018" nominal.
4. Finished Thickness 0.062"+/-0.005"
5. Finish: SM0BC using LPI both sides
6. Soldermask color: Transparent Green (front and back side)
7. Gold Immersion plate exposed Cu
8. Silkscreen color: White (front and back side)
9. Flammability Rating: 94 V-0 min.
10. Fab per IPC-A-600
11. PCBs are to be RoHS compliant
