

### **TX112-1a FCC Compliance Requirement**

**The TX112-1a evaluation board is configured for maximum to demonstrate output capability. For FCC Compliance R7 must be changed to 680 ohm for 433.92MHz and 1000 ohms for 315MHz to lower the power to meet CFR47 Part 15 Paragraph 231. For ETSI compliance contact the Micrel RF Application Department.**
