

Product/Process Change Notice - PCN 18_0171 Rev. -

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date. ADI contact information is listed below.

PCN Title: ADA4522 Die Revision

Publication Date: 20-Dec-2018

Effectivity Date: 28-Feb-2019 (the earliest date that a customer could expect to receive changed material)

Revision Description:

Initial Release.

Description Of Change:

Changes to the Metal 1 / Via / Metal 2 layers. All models will be affected.

Reason For Change:

Improved power on start-up robustness for both high source impendence configurations and high supply current conditions.

Impact of the change (positive or negative) on fit, form, function & reliability:

No Impact to fit, form or function. Reliability improved to cover application with power on start-up and high source impedance.

Product Identification (this section will describe how to identify the changed material)

Material will be separated by date code for conversion to the new die.

Summary of Supporting Information:

Qualification will be performed per Industry Standard Test Methods. See attached Qualification Plan.
